iSWIM - Waterproof Smartphone Case

ISWIM

Featuring a transparent silicone skin edged by a double zip-lock seal, this waterproof holder acts as your gadget's guardian angel – perfect for safeguarding your mobiles and MP3 players from the elements!

As well as protecting your electronic devices from water, the iSWIM also guards against sand, dust and snow. What's more, the case's touch-sensitive skin means that your gadget is still functional while it's sealed away. Yes, you can even activate your handset's touchscreen and make and receive calls! Plus, thanks to the built-in external headphone jack and clear front panel that allows full operation of controls and click wheels, you can listen to your tunes while swimming, sailing or surfing! The double zip-lock seal keeps the water out, while if there's some air trapped in the case, it'll even float if dropped overboard!

An elasticated armband and waterproof headphones are included.

** Always test the waterproof seal using some paper before the 1st and subsequent uses. Always carefully follow instructions.

>> Waterproof, protective, form-fitting design (please use as instructed)
>> Double zip-lock seal
>> Touch screen works though waterproof material
>> Built-in headphone jack and waterproof headphones
>> Make and receive calls as normal (note: calls cannot be made while case is underwater)
>> Listen to your tunes while swimming, bathing, surfing or sailing
>> This case has not been tested for diving situations
>> Please paper test watertight seal before using the case with your gadget
