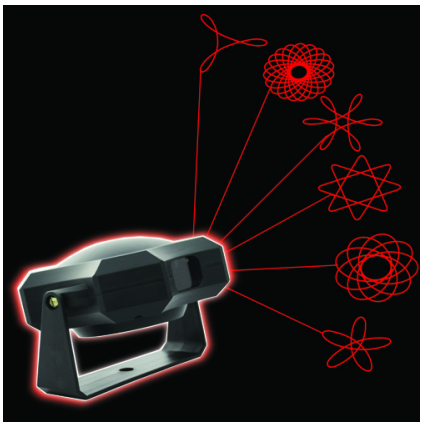
Laser Projection

LASPRO



Compact and lightweight, the Sound-Reactive Laser Projector is your all-in-one answer to an at-home laser show. It's fitted with a super-bright red beam and six interchangeable patterns, spinning geometric spirograph-style sequences wherever you want to shine them. Even better than that, it features three customised settings so you can be sure your disco-laced lighting matches the mood of your do!

Set the device to 'audio' to activate the sound-reactive mode and watch the patterns move in time to the music you're playing - perfect for a professional disco effect - or hit 'fast' and watch the laser spin through its own up-tempo sequence. For that end-of-the-night dance, switch the setting to 'slow' and let the mellow lightshow lead the way…

You can choose exactly where you want to direct the projector too. Use the handy stand to tilt the device upwards and make the laser dance across your ceiling, or tilt it downwards and cast pretty patterns against your walls. After all, you can't throw a party without a few lasers, right?

>> Features one red laser and six interchangeable diffraction patterns
>> Three light settings: sound-reactive / fast / slow
>> Tilting base
>> Creates an at-home disco atmosphere with the flip of a switch
>> Powered by standard 3-Pin AC adaptor or 4 x AAA batteries (not included)
>> Extra awesome with fog machine (also not included)

Item Weight(in kg):	0.240
Carton Weight(in kg):	11.300
Carton Quantity:	24
Carton Dimensions:	77 x 33.5 x 26
Minimum Order Quantity:	6
EAN/Barcode:	5060113899194

thumbsUp!
