USB Cup Warmer

USBCUPWARMER

With a USB Cup Warmer, you'll never have to put up with drinking cold half-cups of tea or coffee again! The USB Cup Warmer is pretty self-explanatory – it plugs into your computer's USB port and keeps your hot beverage hot for you. What more could you want!

Isn't it irritating when, hard at work at your computer, you go to take a sip of your coffee – only to find it has gone stone cold. Solution: The USB Cup Warmer. The USB powered hot plate keeps your drink hot for up to an extra 30 minutes and can maintain the temperature of your drink at 40 degrees even after an hour.

Easy to use and low voltage, the Cup Warmer will accommodate most ceramic cups and small mugs. Give it a try - you'll soon get used to the luxury of having a hot drink by your side and will wonder how you ever lived without it.
